## **Topic 1: ARTICLE 244 A**

### ***Importance for Prelims: Polity***

Congress leader Rahul Gandhi pledge to implement Article 244 (A) of the Constitution to safeguard the interests of the folks in Assam's tribal-majority districts.

- Article 244(A) allows for creation of an '**autonomous state**' within Assam in certain tribal areas.
- Inserted into the Constitution in 1969, it also has a **provision for a Legislature and a Council of Ministers**.
- Under Article 244(A)(1), the Parliament may, by law, form within the State of Assam an autonomous State comprising all or any of the tribal areas.

### **How is it different from the Sixth Schedule of the Constitution?**

- The Sixth Schedule of the Constitution — Articles 244(2) and 275(1) — is a special provision that permits for bigger political autonomy and decentralized governance in certain inherited areas of the Northeast through autonomous councils that are administered by electoral representatives.
- In Assam, the Hill districts of Dima Hasao, Karbi Anglong and West Karbi and also the Bodo Territorial Region are below this provision.
- Article 244(A) accounts for more autonomous powers to inherited areas.
- In Autonomous Councils below the Sixth Schedule, they do not have jurisdiction of law and order.

## Topic 2: AIM PRIME

*Importance for Prelims: Governance*

### AIM Program for Researchers in Innovation and Entrepreneurship.

Your gateway to deep technology, knowledge intensive entrepreneurship.

Initiative of

- The 1st cohort of the program is technology developers (early-stage deep tech start-ups, and scientists/ engineers/ clinicians).
- The program is additionally hospitable CEOs and senior incubation managers of AIM funded Atal Incubation Centers that square measure supporting deep tech entrepreneurs.
- It is catalyzed by the workplace of the Principal Scientific adviser and the Pune knowledge Cluster.

### Topic 3: DNA PROFILING

*Importance for Prelims: Science & tech*

Rape-accused to move court once DNA report rules out his paternity.

- DNA process or DNA identification is technique of analytic and distinguishing variable parts inside the base-pair sequence of DNA.
- DNA process technology is utilized by police everywhere the globe for fool-proof identification of criminals who leave their traces at crime scene whereas committing crime.
- The technology plays a vital role in finding crimes as it has potential to link a series of crimes by putting the suspects by linking them with the crime scene.

### **Significance**

- It is very helpful and correct technology in ascertaining the identity of an individual from his/her DNA sample, or establishing biological relationships between people.

- As a result, DNA technology is being increasingly relied upon in investigations of crime, identification of unidentified bodies, or in determinant parentage.
- But info from DNA samples can reveal intrusive info like their allergies, or condition to diseases.
- As a result, there's a bigger risk of information from DNA analysis obtaining used.

## **Topic 4: PLI FOR FOOD PROCESSING SECTOR**

### ***Importance for Prelims: Government Schemes***
